

The Clinic of the International Center of Hearing and Speech **MEDINCUS**

prophylaxis, diagnostics, treatment and
rehabilitation of ear, nose, throat, larynx diseases
and balance disorders in children and adults

ABOUT HOSPITAL

The Clinic of the International Center of Hearing and Speech MEDINCUS was established in 2011 to provide comprehensive services to patients with otolaryngological problems. It is a state of the art department with an operating theater.

The hospital offers surgical procedures and hospitalization in the field of otorhinolaryngology, audiology and phoniatrics. The interdisciplinary team of specialists and modern diagnostic equipment guarantee the highest quality of medical services.

Patients have air-conditioned and modern rooms (38 beds in total) with access to fast wireless Internet, TV and own bathroom. We provide patients with full board. We take into account medical recommendations regarding the patient's diet, and if possible also their food preferences according to tradition, religion or allergies.

We pay special attention to children's sense of security and comfort. A parent or legal guardian can stay with the child in the ward and actively participate in the care and hospitalization of a small patient.

The Clinic of the International Center of Hearing and Speech MEDINCUS has one of the most modern operating theaters in Poland. Two operating rooms are equipped with world-class equipment that allows to perform even the most complex surgical procedures safely. Immediately after the procedure and after waking up, the patient is transported to the recovery room (POP) and then to the hospital room.

The hospital team consists of experienced surgeons, anesthesiologists, nurses, clinical assistants, medical technicians and medical secretaries who provide professional care before, during and after procedures.

MEDICAL SERVICES

The procedures performed in the hospital include throat, ear, nose, sinus and larynx surgeries. Among the highly specialized medical procedures we also offer a full program of hearing implant surgeries: cochlear, middle ear and bone conduction implantations. Our patients receive comprehensive care 24 hours a day. A highly qualified team of doctors and nurses guarantees comprehensive care.

Provided medical services:

- **throat surgeries:**

THE INTERNATIONAL CENTER OF HEARING AND SPEECH MEDINCUS

The International Center of Hearing and Speech MEDINCUS is situated in Kajetany, about 20 km to the south-west of Warsaw. Localisation of the hospital surrounded by forest helps to recuperate faster after the surgeries.

We provide our patients with the most comfortable conditions of stay during their treatment and rehabilitation. To ensure safety and comfort of our patients, there is a high class hotel with comfortable rooms of various categories (Hotel Park Kajetany). It also includes a restaurant (Restauracja Pod Ślimakiem) with an extensive menu that even the most demanding client will enjoy, a pool with a relaxation area, and a recreation complex: park, gym, mini zoo, shop and pharmacy.

We book hotel rooms for our foreign patients in advance and provide transfers from the airport, railway or bus stations. To fulfill all the needs and concerns of our patients, there is an international cooperation department in the Center, whose employees speak several foreign languages. The team of professionals create all the conditions for a comfortable stay and effective treatment.

Choosing treatment at the Center of Hearing and Speech MEDINCUS you get not only high-quality European medical services, but also leisure, relaxation, top-level service and professional attitude to all your needs.
